Great post! This is really helpful. I tried it and works just fine. However, to access new Desktop notifications you HAVE to click the bell icon. If I am already logged in to Salesforce and a notification is published, I would ideally want it to just float up in the top right corner and an ability to close it, mark it as read etc.

Setting Up Push Notifications In Salesforce | Salesforce Ben

Flow Builder is the most powerful tool that a Salesforce Admin has at their disposal, giving you similar powers that Salesforce developers have. If you need to perform mass updates across multiple unrelated records, or complex logic into opportunity conversion, these are common examples for when you should use Flow.

W hides all guides and frame edges, but it does not change rendering mode - if you didn't change that in settings, you'll still see all media as previews only.. But pressing Shift + W enters you into presentation mode, which besides hiding all interface elements and hiding all guides and frame edges, also renders all media in high quality. Pressing it again returns you back to edit mode.
