When a fire was lite atop the Gondor. one outpost after another lit their fire in response, until hundreds of miles away to the north, Rohan received the signal.

Treatise on Faith and Science

Philosophy of science is a branch of philosophy concerned with the foundations, methods, and implications of science. The central questions of this study concern what qualifies as science, the reliability of scientific theories, and the ultimate purpose of science. This discipline overlaps with metaphysics, ontology, and epistemology, for example, when it explores the relationship between ...
