Asperger's Syndrome
and Family Stress

Families with

Asperger's Syndrome
face difficult challenges

The love of a family is
life's greatest blessing.

"As a challenge to the
family, autism must
rank among the most
stressful of childhood
developmental
disabilities," concluded
one Australian study.

Syndrome - FAAAS

Asperger's syndrome is part of what is called the autistic spectrum.

On one side, it is distinguished from the more severe forms of autism, which often involve mental retardation, no language or extremely limited language, and almost complete social isolation.
