least provide you with references related to the book you are looking for like, where you can get the book online or offline, even if it doesn't store itself. Therefore, if you know a book that's not listed you can simply add the information on the site.

Butkov Solutions Mathematical Physics

Butkov does what physics teachers do.

Read Online Butkov Solutions Mathematical Physics

He cuts out the nonessential things a math professor would teach and tells you what you need to know to use the methods. Many physics authors are so afraid of being corrected over tiny points of rigor, they include a lot of stuff which serves no purpose except to confuse.

theory of partial differential equation, variational calculus, Fourier analysis, potential theory, and vector analysis are perhaps most closely associated with mathematical physics. These were developed intensively from the second half of the 18th century (by, for example, D'Alembert, Euler, and Lagrange) until the 1930s..
