The Honda H engine was Honda's larger high-performance engine family from the 1990s and early 2000s. It is largely derived from the Honda F engine with which it shares many design features. Like Honda's other 4-cylinder families of the 80s and 90s, It has also enjoyed some success as a racing engine, forming the basis of Honda's touring car racing engines for many years, and being installed in ...

The exterior was very nice and the brackets were good. I wanted to ride a sedan, so it looked like an ideal one. The room was large, well equipped, and the habitability was wonderful. Safety equipment was also substantial. After all, it was a hybrid and the economy was great. The sound was quiet and I couldn't even tell if the engine was running.
