Remember Cryptocurrency is a 24/7 Global Market. In other words, the market never sleeps. Since you do, consider automating your investing strategy using limit orders, stops, or even using APIs (via “trading bots”). Dad advice: Aim to buy low, sell high; try not to buy high, sell low. Look at the price trend, if we are at the highest point it has been in the past 24 hours (days, weeks, etc), that is inherently riskier than buying at a short term low.
