There are two ways to program the Bearcat 220XLT scanner: entering frequencies, or scanning for active frequencies and saving them. If you have a list of frequencies that you'd like to store in the scanner such as a local list from a scanning website or reference book, the first method works well. If you're at ...

The Bearcat 220 is a 20 channel (in two banks) base scanner with 7 band coverage. Channel Lockout allows you to skip channels you don't want to hear. Programming is easy. Just key in the desired frequency. You can see the entire frequency on the red LED display. Scanning is at 5 or 15 channels per second.
