Carburetor Problems and Solutions - Small Engine Parts

A small engine is the general term for a wide range of small-displacement, low-powered internal combustion engines used to power lawn mowers, generators, concrete mixers and many other machines that require independent power sources. These engines often have simple designs, for example an air-cooled single-cylinder petrol engine with a pull-cord starter, capacitor discharge ignition and a ...

Small engine - Wikipedia

Having problems with my Honda lawn mower, would only run with full choke. Did an internet search that told me to clean my carburetor and replace the gaskets, was probably an air leak. So the cleaner with basket retails around \$25.00 and this carburetor was four dollars less. I'm not a rocket scientist but I do know numbers, this was the way to go.
