Promoting Indigenous African Languages Through Information ...

Urban languages have been studied in many different contexts with emphasis placed on the level of creativity that characterizes these language forms, including the discursive construction of the identity of their users. This chapter focuses on the conceptual aspects of these varieties of language in African contexts by examining the use of terms such as “urban” and “youth.”

In sub-Saharan Africa 40 percent of staple foods fail to reach markets because of poor roads and market access limitations, according to the Food Sustainability Index (FSI) developed by the Economist Intelligence Unit and the Barilla Centre for Food and Nutrition (BCFN).. To this end, importers have taken advantage of the demand by supplying low quality food products to Africa's cities.
