This is due to the fact that the data Lee uses is a compilation from manuals over more than one version and the data can slightly change between versions. Lee follows this practice to provide their customers load data for older "obsolete" cartridges that are no longer listed and for those people who have older brands of gunpowder on their benches that may no longer be listed in more modern ...

The Lee auto-drum measure really works nice and is easy to set up. I did manage to booger mine up (my fault, not Lee's). I received a set of 4 extra cones (2 sets of pistol and rifle). Prepping them, I rubbed graphite on the cone pieces. The pistol cones were great. The manual says to preset the measure using a dipper, which I did not do.
