Mikuni Bs34 Manual

Mikuni Motorcycle Carburetor Theory 101. Motorcycle carburetors look very complex, but with a little theory, you can tune your bike for maximum performance. All carburetors work under the basic principle of atmospheric pressure. Atmospheric pressure is a powerful force which exerts pressure on everything.

Mikuni carburetor operation and tuning

Like other Mikuni carburetors, the TM Series 33mm improves throttle response on motorcycles. The air flows faster in the TM series and the flat slide design blocks the jet helping to create a smooth bore effect. It is a dual cable carb and works on the 97 DR350 bike and others, empowering them to run as though they are new although they may be ...
