Use your electronic rangefinder in your viewfinder to shoot in the manual focus mode, it is how to disable the auto focus assist light of the camera in the low light conditions. Read carefully the manual. You should spend more time for practicing in the real situations. Nikon D3100 Aperture About aperture/F-stop lens of Nikon D3100

How to change shutter speed, aperture on Nikon D3100

A correction to my previous Nikon D5100 post: today I played some more with the video functionality of the Nikon D5100 and you can set the aperture manually for video recording. The trick is that you have to do it before you turn on LiveView when in aperture priority, otherwise the aperture selection will be overwritten. It would be nice if Nikon had a chapter on this in their product manual.

Correction: you can use manual control for video recording ...
