Nissan H20 Engine

The Nissan H series of automobile engines is an evolution of the Nissan "R" engine which was based on the 1.5L 3 main "G" used in the 1960s. Both straight-4 and straight-6 versions were produced, it is a pushrod OHV design with iron block, early models with an iron head, later models with aluminum head. Versions of this motor have been used in many Nissan autos and forklifts, well into the ...

H20 Spec - Forklift & Industrial Engine Overhaul Parts Kits

The H20 is frequently used in overseas markets as an automotive motor. Which markets and what automobiles I have no clue. Surely, there is something downunder powered by an H20 or maybe even an H25. Here in the states they are only used in Nissan forklifts. The H20 looks exactly like an R motor and should drop right in with little problem.
