Post-Modernism for Psychotherapists: A Critical Reader ...

Postmodernism has also affected psychotherapy; namely, it has given rise to a social constructionist approach to counseling. Specific therapeutic practices considered postmodern include the collaborative language systems approach, solution-focused brief therapy, solution-oriented therapy, and narrative therapy.

What is postmodern therapy, and is it biblical ...

And this idea of human being with a soul and not just a mind introduces us to the final implication of post-modernism for psychotherapy, that of the respect for the other and his unique otherness. Hegel, in his ideas around identity and its dependency on the other argued that " consciousness cannot grasp itself without recognition by others (Loewenthal & Snell, 2003, p.41).

Post-modernism and Psychotherapy - Θεοφάνης Καραγιάννης ...

Postmodernism uersus psychotherapy 177 Equipped with theories that explained problems in living on different levels than they were experienced by their sufferers, therapists became particularly prominent cultural exemplars of the modernist tendency to require an authority to pronounce on the underlying meaning of the person's experiences.

Postmodernism versus psychotherapy

Postmodern psychotherapists believe that it is difficult at best, and often impossible, for a mental health "expert" to be able to determine what is "psychologically healthy," since there is no truly objective measurement of mental health.

Postmodern Therapy - A guide to Postmodern Therapy

Postmodern psychotherapists believe that it is difficult at best, and often impossible, for a mental health "expert" to be able to determine what is "psychologically healthy," since there is no truly objective measurement of mental health. Postmodern approaches do not have a single founder.

11 Counseling Theories: Postmodern Counseling Theory

postmodernism as found in family therapy literature. Toward that end, thirty-one articles from seven journals were examined to identify these meanings. This research found six general categories within which comments about postmodernism were expressed. Within the core category, twenty-six separate characteristics were identified.

Postmodernism in therapy: meanings and concerns

Postmodernism is a broad movement that developed in the mid- to late 20th century across philosophy, the arts, architecture, and criticism, marking a departure from modernism. The term has been more generally applied to describe a historical era said to follow after modernity and the tendencies of this era.. Postmodernism is generally defined by an attitude of skepticism, irony, or rejection ...

Postmodernism - Wikipedia

Postmodern Approaches. Overview Postmodernists believe in the subjective realities that do not exist independent of observational processes. Social constructionism is a therapeutic perspective within a postmodern worldview: it stresses the client's reality without disputing whether it is accurate or rational.

Alternatively, therapists could go to the other extreme and mistake pathology for mere cultural difference. For example, a therapist could ignore or minimize a client's objectification and manipulation of women because, in the client's culture, women are viewed as second-class citizens. As another example, should a therapist

Postmodernism FAQ - Blatner

postmodernism, in my view, will ultimately fail family therapists (or any other mental health practitioner working in other modes). Postmodern flaws My prediction about postmodernism failing family therapists is based upon a lack of confidence in its practical utility. This question of utility is more important in the clinic than other bench-marks
