EdTech Solutions - Teaching Every Student

You can’t reach every student with a single teaching style. You must pay attention to what your students need and adjust as necessary. There is no single best teaching style. As I said earlier, that’s what made my dad a great teacher. He was able to sense the needs of his students and adjust his style to match what they needed.

The Best Teaching Styles Every Teacher Should Know

And as educators learn more about effective ways to engage learners of every style, the teacher-centered approach is looked upon less fondly than it once was. However, there are also countless examples of students being challenged and transformed by a teacher or professor lecturing about a subject they have spent their entire life exploring ...

An Educator’s Guide to Teaching Styles & Learning Styles

Learn more about the different teaching styles that use a teacher-centered approach. Student-Centered Approach to Learning. While teachers are still an authority figure in a student-centered teaching model, teachers and students play an equally active role in the learning process.

Teaching Methods

In my opinion, parents of every student in every school at every level should demand that all students be taught how to code. They need this skill not because they’ll all go into it as a career—that isn’t realistic—but because it impacts every career in the 21st-century world. Any country recognizing that will benefit in the long term.
