The Rediscovery Of Mind John

In this major new work, John Searle launches a formidable attack on current orthodoxies in the philosophy of mind. More than anything else, he argues, it is the neglect of consciousness that results in so much barrenness and sterility in psychology, the philosophy of mind, and cognitive science: there can be no study of mind that leaves out ...

The Rediscovery of the Mind | MIT CogNet

But has the mind been rediscovered by the same philosophers who "lost" it? Probably not. John Searle is an analytic philosopher, with some of the same notions as the positivists and behaviorists who rejected consciousness and "lost" the mind in the first place, but he also does not sound like the kind of reductionist who would have joined that crowd.

The Rediscovery of the Mind, by John R. Searle Likewise, if something is subjective, then it is not objective; if something is objective, then it is not subjective. The rest of the book is an attack on computational theories of mind.

JOHN SEARLE REDISCOVERY OF THE MIND PDF

For starters, the very title, The Rediscovery of the Mind, is a hyperbolic misnomer since the author fails therein to rediscover, let alone discover, anything of any consequence about the 'mind', the book turning out instead to be a summation of various theories and his own highly debatable speculations on this contentious topic.
