Woodcut

Woodcut, technique of printing designs from planks of wood incised parallel to the vertical axis of the wood's grain. It is one of the oldest methods of making prints from a relief surface, having been used in China to decorate textiles since the 5th century ce.

Read Book Woodcut

Woodcut is a relief printing technique in printmaking. An artist carves an image into the surface of a block of wood —typically with gouges —leaving the printing parts level with the surface while removing the non-printing parts.

Woodcut - Wikipedia

Woodcut definition is - a relief printing surface consisting of a wooden block with a usually pictorial design cut with the grain. How to use woodcut in a sentence.

Woodcut | Definition of Woodcut by Merriam-Webster

The oldest form of printmaking, woodcut is a relief process in which knives and other tools are used to carve a design into the surface of a wooden block. The raised areas that remain after the block has been cut are inked and printed, while the recessed areas that are cut away do not retain ink, and will remain blank in the final print.

Read Book Woodcut

The earliest print technique, woodcut first appeared in China in the ninth century. Arriving in Europe around 1400, it was originally used for stamping designs onto fabrics, textiles, or playing cards. By the 16th century it had achieved the status of an important art form in the work of Albrecht Dürer and other Northern European artists.

MoMA | German Expressionism Woodcut

Woodcut, the oldest technique used in fine art printmaking, is a form of relief printing. The artist's design or drawing is made on a piece of wood (usually beechwood), and the untouched areas are then cut away with gouges, leaving the raised image which is then inked.

Woodcuts: Printmaking Technique of Relief Printing

Woodcut, which appeared in the 8th century in the East and in the early 15th century in the West, is the earliest known relief-printing method. In this method, the design is first either painted directly onto the wood block or pasted on it. Then the surface of the wood is cut away around the design.
